

# **Elderly Hospice & Palliative Care Centre**

## **Dua Old Age Caring Institution**

Providing compassionate, dignified care for our elders in their most vulnerable moments

# The Growing Need for Elderly Palliative Care in India

## Ageing Population

By 2050, over 20% of India's population will be aged 60 and above, with a significant number facing chronic, life-limiting illnesses requiring specialized supportive care.

## Current Care Gap

Currently, 12.2% of older adults require supportive and palliative care, especially those battling cancer, stroke, respiratory diseases, and other terminal conditions.

## Financial Crisis

High out-of-pocket healthcare costs push millions of elderly families into poverty annually, creating a healthcare crisis that affects entire communities.

# Challenges in Elderly End-of-Life Care in India

## Limited Access

Palliative care services are predominantly urban-centric and hospital-based, leaving rural and semi-urban elders critically underserved and isolated from quality care.

## Financial Burden

Hospitalisation costs average ₹36,000 annually per elderly patient, with a staggering 82% paid out-of-pocket, devastating family savings and security.

## Social Stigma

Deep-rooted social stigma and widespread lack of awareness about palliative care hinder timely intervention and support for terminally ill elderly individuals.

# Dua Old Age Caring Institution: Compassionate Care for Elders

## Holistic Hospice Care

We provide comprehensive hospice and palliative care tailored to elderly needs, focusing on symptom relief, emotional support, and preserving dignity throughout the journey.

## Integrated Approach

Our care integrates medical expertise, psychological counselling, and spiritual support with active family involvement and extensive community outreach programmes.

## Reducing Burden

We reduce unnecessary hospital admissions and financial strain by offering home-like comfort, expert medical care, and compassionate support in familiar surroundings.

# Join Us in Transforming Elderly Care

01

## Support Our Mission

Partner with Dua Institution to expand accessible, culturally sensitive hospice and palliative care services across urban and rural India, reaching every elder in need.

02

## Advocate for Change

Champion policy reforms, professional training programmes, and public awareness campaigns to meet the rising demand for quality end-of-life care nationwide.

03

## Create Lasting Impact

Together, we can ensure our elders live their final days with comfort, respect, dignity, and peace—surrounded by love and professional care they deserve.
